# Twelve years of success in the property business

Originally established in 2002 as a Corporate Interior Architectural practice with a focus on providing **Space Planning, Interior Design, Tenant Installation** and **Project Management** services, the **NAPD Group** is best known for its flagship, and founding arm **NAP Designs**. The Group now includes **NAP Developments** and **NAP Investments**, and focuses on the seamless relocation of businesses by building and designing quality workspaces with uncompromised efficiency, consistent quality and superior service delivery.

Building on a solid track record for on-time delivery of quality workspaces, through design re-development and refurbishment projects, NAPD Holdings is focused on its goal to become a major player in the property industry, and continues this journey towards building its resources around property investment, development, and management. The **NAPD Group** is fast becoming a leading, independent property specialist in the commercial office market, through investing and developing workspaces for a variety of different clients in both the Private and Public sector.

To celebrate more than a decade in business is an important milestone for our company and we are very proud to have reached this pinnacle with the support of our clients. Our most recent projects include the relocation of the **Sebata Group of Companies** to **Hertford Park**, as well as the refurbishment of the head office for the **POPCRU Group of Companies** in Pretoria, and the relocation of **TOTAL (SA)** Head Office in **Sandton**.

Our value-add lies in delivering property advisory services and workspace strategies that consistently provide optimal space utilisation, outstanding design and high quality finishes, to satisfy a wide range of client needs. Our aim is to achieve improved efficiency, reduced cost of occupancy whilst ensuring enhanced corporate image and employee productivity.

The early days were challenging to say the least. "stated Ntaba Phili, Managing Director, NAPD Holdings, and the Founder of NAP Designs. In our twelve years involved in the property business we've seen the growth in the sector that has created new challenges/opportunities brought on by the shift towards efficient space utilisation. In the time the NAPD Group has grown organically by constantly evolving, and by going above and beyond our initial founding mandate to provide our clients with Turnkey property solutions and services.

Our company structure and strategic partnerships ensures that we have the competencies, and experience to assist our clients in handling their entire relocation process and drive a co-ordinated strategy, to deliver workspace solutions with the best use of space, and available resources.

We are most thankful to our wonderful clients and trusted business associates who have entrusted NAPD Holdings with their business goals, and thus became part of our growth in the past twelve years, and we look forward to their continued support in the future". says Ntaba Phili

Here's to twelve years of creating exceptional workspace solutions!
